

ST GEORGE'S PARK

Moving to St Georges Park Retirement Village George and Lesley

I watched the village grow and develop over the years and always thought it would be a lovely place to retire to. I was widowed in 2009 and was blessed to meet George from Dublin on a cruise in 2015. We lived between Haywards Heath and Dublin for 6 years.

We visited the village on a number of occasions and viewed some apartments and every time we visited the residents of the village were so sociable and friendly. Many said that their only regret was leaving it too late to move here to enjoy the facilities.

With the help of the wonderful sales team we managed to secure the apartment we wanted and moved in November 2020. During lockdown St Georges Park Retirement Village was the safest place to be, not only were we able to safely walk in the beautiful grounds, the fantastic staff delivered meals, shopping and of course a newspaper.

We love the community spirit of the village and have been joining in lots of activities including choir, bridge, line dancing and boules to mention a few. George describes St Georges Park as like being on a luxury cruise on land and has also especially embraced visiting the swimming pool most days even though he is a non-swimmer.

Kate Wright. Sales and Marketing. It was a pleasure to help George and Lesley with their move to the Village. We are so pleased that the reality of living at St Georges Park Retirement Village has lived up to their expectations.
